

## **LIST OF TESTIMONIALS 2018 to 2021**

Good afternoon,

I would like to tell you my experience with the Ultimate Zapper.

In 2016 I became very ill. I had no idea what was going on with me, just sick and unable to get out of bed. My brother brings over this machine, The Ultimate Zapper and wants to hook me up so I was game. After the session with it I began to feel **EXTREMELY DIZZY**. but it was a very nice feeling. The only way I can describe it is I felt like a vinyl record spinning around perfectly. it felt so nice and I immediately laid down and fell right asleep. When I woke up, I still felt like the "vinyl record" spinning perfectly around and around. I stood up ( I felt better than I had in days) but I stood up and went to my front glass door and just stared out.. all the sudden, I heard in my head a "beep beep beep beep" and it came straight from my liver!! At that exact moment I exclaimed, "It's my liver, I'm going to the emergency room!!" .. the doctors there examined my liver through a scan/picture and came into my room and told me, "You have a spot on your liver but you should not have known this". I told this doctor all about what had happened and he was **VERY INTERESTED** and **VERY EXCITED** to hear about the Ultimate Zapper and even walked me out to my car so he could still talk to me about my experience. He was very intrigued, to say the least. The "beeping" noise it sent to my brain has always captured my attention. I've been too scared to go back to the Dr about my liver but I'm about to do so. I want your machine, the

Ultimate Zapper in my home. I will fill you in, if you're interested, in the outcome of the tests on my liver. If there is still a spot on it and especially if it's gotten worse, I'm going to try and use your Zapper to kill whatever it is on my liver that's making me sick.

Thank you so much!! I'm very excited to find out all I can!! By the way, that day that I was feeling like a vinyl record spinning around and around. I felt that way all that day and night and I felt it the next day as well, just not as strong the following day.

Thanks again,  
Amy H.

Dec. 30, 2021

Hi Ken,

Thank you for your quick response and providing such a great product. I have owned a QE2 for some time and am giving it to someone else and upgrading to QE4 for myself. What a miracle product it truly is. You are a good person.

Regards,  
Malcolm G.

Dec. 12, 2021

Greetings Ken,

I was in error about the XE+ hand holds being only stainless steel like the SE. I did receive the correct 1 copper and 1 stainless steel handholds. Our family has been successfully using your Zapper since the early 2000's. Thank you for developing this great device,

Bradley W.

Nov.25, 2021

Thanks so much Ken!

I am happy I made your day! You certainly deserve high praise. Yep my 'MS' or whatever it was, cure, took 3 months! First the prickling in the arms left and then the legs returned to normal.

My mother seems to have advanced abdominal cancer. My whole family do not like allopathic treatment as we are aware of how ridiculous it is, so me and my brother have been treating it at home. In the last month we have dialled back her symptoms with (don't laugh) shivambu, drinking and rubbing with urine, and it seems to be in remission as her energy and flexibility has skyrocketed over the last few weeks that she has been on it, with pain much reduced. According to testimonials of that treatment, it cures all advanced cancers if you can do it for long enough, (takes several months). Anyway she has been on the regular Hulda zapper for a few days in addition to that and feels better after it, hence I am buying yours. My brother is monitoring it with a multimeter to make sure it doesn't go below 9V.

BTW I am a history doctor. One day, I really want to investigate and write a book on this neglected field of electromedicine and you and Hulda will be the latest and greatest towards the end of the book! BTW in case you are not aware, I have noticed electromedicine was invented as soon as they invented batteries in around 1700. Francis Hawksbee the English electrician describes electromedicine in his AD 1706 book! I strongly believe Tesla read these older books as they contain descriptions of primitive fluro lighting as well which he 'later invented', and this explains why he was into 'zapping himself' with high voltage. I have seen it in two other old texts, if you are interested let me know and I can send photos of the relevant text.

Thank you again for your wonderful work, Ken! 😊

Best Regards.  
Dr. Charles K.  
Oct. 27, 2021

Hi Ken!

Nice to hear from you. Anyway you don't know it but you really helped me in 2007! I had MS symptoms, prickling everywhere and couldn't walk. Blood test said mononucleosis. Anyway I fixed it with lots of sunbaking, curry (found the active ingredient was cumin and not the much vaunted turmeric, which halts MS in its tracks). Then I found your site, and read your story, removed all mercury fillings and chelation with cilantro and chlorella and it worked, now it's all under the radar and i'm back

to normal for a long time! Woohoooooo! So I want to thank you for having that wonderful information online!

BTW I used a 'terminator zapper' last year when I had C\*\*\*D, it did nothing. I've never used your zapper before, I'm healthy except for a bit of long C\*\*\*D, buying this for my mum. Maybe it will fix the long C\*\*\*D too! Haha!

Cheers!

Dr. Charles K.

Oct. 27, 2021

I recently purchased the newest zapper and love it! I'm not sure if you know much about endometriosis or related health issues but I wanted to see if you knew any women who've experienced big changes with specific health issues like that. I feel like it is helping a lot along with so much, so grateful for this zapper my goodness!!

Thank you so much 😊

Warmly,

Alicia R.

Oct. 10, 2021

Ken,

I am having great success with the Zapper. I am now zapping twice daily for 2 minutes. My legs feel lighter and I have less brain fog. I think I have less fatigue too.

How do I zap my cat? Will it be enough for her to sit on my lap while I hold on to the copper rods? Or do her paws need to touch the wet paper towels/rods?

Thanks  
Sherry A.  
Sept. 26, 2021

Hi Ken,

I worked with a guy that had C\*\*\*D, two days later I fell ill dripping nose headache from hell. All this in about five minutes. It scared me so I used the older XE for 30 minutes my nose stopped running after 5 minutes.

I then used the QE2 for 10 minutes I was ok after that although the headache lasted 3 hours.

Thanks again for a great product.

Daniel R.  
Sept. 10, 2021

Dear Ken,

I hope you are well.

My friend with H pylori had a lot of relief with the zapping.

A friend's son is 14 and has a desmoid tumor on his calf. Is that a virus? Is it worth trying to zap?

Thanks! Have a wonderful evening.

Kind regards,  
Glyn L.  
Sept. 5, 2021

Happy Sunday Ken,  
Update on my sister Ruth, she's been zapping and went back for a second opinion on her kidney cancer and as of last Friday, July 2nd, her second Dr told her that she does not have Cancer.  
My sister told me, she could feel the zapping in her body.  
She's happy and finally told her children what she went through and now she's healthy again.  
Thank you and Bless you.  
Mardy P.  
July 11, 2021

Hi Ken,

BTW, I tested C\*\*\*D-19 positive on February 9th.  
I used your zapper 2 hours a day and got better.  
Not 100% but so much improved I thought I was going to die of pneumonia.  
Very good zapper.  
Patricia T.  
Feb 21, 2021

Dear Ken,

I bought 3 of the above zappers in 2012 from one of your distributors. Two HIV cases were resolved and a 100% recovery attained. Thank you.

I was wondering if I could get another one, SE model, please.

Your response appreciated.

Kind regards  
Busi S.  
May 19, 2021

Hi Ken

me and my wife and kids all got C\*\*\*\*\*A virus this week from people that got vaccinated , with the ultimate zapper it NOTHING to talk about .

We were healthy in just one session !!!

got my wife out of a half paralyzed face situation just by doing the ultimate zapper for

(5 min / 5 min brake) X 4-5 times - she was unable to eat , and with much pain and fever.- woke up the next day cured - got back to work.

Michael. B.

May 11, 2021

Hi Ken.

My friend Jackie in England just got her QE4 and is very happy with it!!

I am telling everyone I know!!

Nothing has killed Morgellons in 5 years! But this is working! Honestly a true miracle!!

Thank you again!

Lanette H. Apr. 28, 2021

Hi Ken,

Thank you for creating these wonderful healing devices!

I told my friend about you machine and mentioned that he should let his dad who has lyme disease look into it. He bought

one and he and his dad use it everyday and feel infinitely better from it. Myself too, very powerful..amazing

I will let you know this week sometime,  
Thanks,  
Harrison R. Apr. 20, 2021

Hi Ken

How are you ? Congratulation on new model QE4.

I want to tell you my stories and to share my experience with QE3 (I have so far 4 your models, 2 XE, one QE2 and one QE3) I recommended you zapper to many people here in Canada but even in Germany.

Anyway my colleague bought on my recommendation QE3 model (Her son J.Espino purchased from you in Vancouver directly )

She got few weeks ago 39 C fever, her body was in ache and she started to use QE3 for 10 min (she never used before) I told her about starting with few seconds like in your manual etc but she used 10 min first time.

She was much better and in the morning her fever was 36.7C She said she was feeling wonderful. I recommended to use zapper 3 day in row.

She was using each day 10 min and fever never came back  
Case No2

My wife came back from work and she started to feel sick, she got fever 38.9 C and I recommended to use Zapper QE2 .She was using 2 days 10-15 min session. She was feeling much better after zapping but fever again returned

3rd day I said lets use QE3. She was using 10-13 min and her fever was gone,She felt much better got her energy and she recover completely after just one use of QE3

I did recommended to use 2 more days (total 3 days with QE3) and she did 10 min each time

Case No3

mu younger son (16 old),got fever 38C, He was using QE3 15 min one time and he was feeling much better.

It seams that QE3 is much powerful than QE2 and more efficient.

Just wonder if older customers with ownership of few older models have some extra discount with purchase of model QE4?

Best regards.

N.K.

Dear Mr. Presner,

My husband and I have used and loved your zapper for more than five years now. We've seen many wonderful results, I won't take your time with those today.

My dentist, Dr. Paul Gallo, was a student of Dr. Hal Huggins. He had not heard of your zapper, and I shared information about it at my first exam by him. He is famous for wonderful dental revisions, and recommended me having three "dead" teeth (one of which had a root canal ten years ago) removed, two mercury fillings removed and replaced with biocompatible ones, and my cavitations from wisdom teeth cleaned and treated.

Partly because of finances, also because I would love to keep those three teeth, I asked if I could just get the mercury fillings

removed, and then zap my mouth while eating a "perfect" re-mineralizing diet for six months, to see if the cavitations and dead teeth (showing abscesses around roots on an x-Ray) would improve. Is improvement a possibility, in your estimation? Next important question: at least two of those dead teeth have large composite fillings; he told me that in the U.S., 90% of composite fillings have metals such as aluminum in them. Will zapping my mouth with those fillings cause me similar problems with aluminum migrating to organs that I would have from mercury fillings?

Thank you so much!

Sincerely,

Kellie B.

Ok. Each day i am getting better. This has been a bizaar period of 9 mo yhs of struggling with IBS.

I didn't think a out zapping when this started but when i pulled it out and started zapping it was 't doing anything. Very scary. Now, this zapper is making a difference. Thank God for Karen.

F. M.

Hi Ken,

I am now on my 7 day break from using the zapper I start back on the 17<sup>th</sup> of July.

I was wondering when I start back up after 7 days can I start back at the 10 minutes or should I start out

Slowly again and progress up on my time again? I am using the footpads and both handheld magnets.

Also I wanted to let you know a friend of mine has been trying my zapper and actually purchased one from

You last week, Lisa Hershman .

She is seeing amazing improvement in scoliosis and pain from inflammation her back.

If Lisa and I want to purchase a few zappers for our family could you give me information about

Maybe a distributor ship on purchasing a few units and the terms? We thought if we combined ordering more than one it may help us save on Multiple units.

I just can't believe I never tried the zapper decades ago, I actually studied Hilda Clarks therapy's years ago I Just can't believe I never tried a zapper back then. Well thanks and look forward to hearing back from you have a great weekend.

Best Regards

Sharon D.

Hi Ken,

Just wanted to let you know that I had my sister Elisa Paoluzzi try my zapper. Last year, she got a toe infection from a pedicure and has been struggling ever since to heal her big toe. She went through rounds of antibiotics and topic antibiotics and it is still bothering her. She can't do lengthy walks anymore without her toe getting inflammed. The podiatrist now wonders if it might still be infected.

She was visiting me for a few days and I let her try the zapper. She noticed some improvement and now plans to buy the QE1, same as mine.

You should expect to get an order from her soon.

Kind regards, Patrizia

features are coming out of me obliterated... all broken apart with their insides coming out separately. i started zapping at 15 seconds yesterday and went to 30 seconds today... should i still keep increasing the zap time? is this normal for the parasites to break apart using the zapper?

Hello Ken,

It has been a long time since have contacted you. In fact I've had my "new model XE" for several years. I am unable to give you my exact date of purchase as we have recently moved and I'm unable to find my "zapper file" with all my information and instructions. I am unable to find information regarding the lifetime warranty. I can not live without my zapper. Rescues me every time when having a bladder infection flair up. I take care of my zapper impeccably, keeping it protected in a special box, as I take it everywhere with me when I'm out of town.

So the problem I'm currently having and only noticed last week, is that using it for a recurring bladder infection but wasn't giving me good result and I noticed the little red light was flickering and not staying completely on. As soon as I touched the one

wire where it goes into the black box it stayed on. I taped it to hold it and proceeded with another treatment of 20 (on) 20 (off) 20 (on) 20 (off) 20 (on) and my bladder discomfort was gone as it always had worked before. So consequently it looks like I need another box ONLY. All my other parts -- rods and foot pads are working good. So what do you suggest? Don't know what the life time warranty covers.

Thank you for your response to this email.

Pam L.

Hi Ken, hope you are doing well, I bought Ultimate Zapper from you last year and we exchanged quiet a few emails before. I was using your zapper regularly in the beginning and as life gets in the way I had forgotten about it. Recently I had an injury while exercising and my left side ribs were swollen and I was in pain for almost a month now, it was sometimes difficult to breather properly. My wife remembered about the zapper and had me try that today and within about 45 mins of use the pain and swelling was gone about 90% and I was speechless how fast this resolved it, I am guessing it has kicked on blood flow to the area or something of that sort So I just wanted to send you this testimonial, thanks again for your wonderful product.

Rama G.

Hello Ken 😊

My name is Oliver and I wanted to say thank you very much for

a truly amazing product. I purchased one of your units about 16 years ago now, and have since {recently} mailed it off to an old friend whom I believed was slowly dying from a cancerous lesion, as per what he was describing to me ---- he hooked up to the unit upon receiving it, with my instructions via telephone.... and lo & behold.... he's healthy as a horse now!

And I won't bother you with what this device did for my recovery from a wicked and protracted systemic fungal infection, except to say that I suffered horribly for 7+ years, spent well over \$10K on useless supplements plus extreme dietary protocols, and nearly died in the process... until..... I broke down and bought your zapper --- I admit that I thought it was too good to be true... but I had run out of options as I was wasting away @ 150 lbs. {normally 185} I was slowly dying and desperate ---- I'm telling you Ken... the zapper saved my life too !!!

At any rate, I gave the zapper to my 'ole buddy as a gift... so now I need a new one. I have another zapper unit but I'm not pleased with it, and I want another Ultimate Zapper ---- Is there any chance I could speak with you on the phone concerning a custom order format that isn't available on your web page? Please feel free to contact me anytime @ xxxx and please lv. a message if I'm not available {I have spotty cell phone reception here beyond Sooke, about an hour drive from Victoria BC... btw :)

Stay healthy in the evil day my friend, and God bless-----

---

Oliver R.

I love the zapper I bought a month ago. I've used Dr.Clark and penny zappers over the years, this is far better. Thought I wish I would have waited for the big discount!

Can you use either side of the foot pads on the skin?

How long do you use it at a time as a pulse?

Can I get your protocol book at a discount? I'm a senior and would like more data on the different ways of using it.

Thank you

Catherine S.

Hello Ken,

This is Michelle from xxxxx

I am continuing with zapping and the infectious mental symptoms from neuroborreliosis and toxoplasmosis and coinfections are getting reduced step by step.

My husband is also continuing his zapping to kill his own infections that is causing his chronic fatigue. He is able to work now and to function almost normal, before he was almost bedridden.

We read on your page about <http://zap.intergate.ca/gates.html>  
And we already knew pretty much of what is going on...it is too obvious what they are trying to do.

Have you watched the documentary From JFK to 911? Its great, really helps to see the bigger picture and it connects deeply with what you write on your website.

You are a warrior of Truth.

I have a question and I want a straight answer.

Me and husbie are talking about the possibility to be forced to take a vaccine.

And I think that if we zapp right after and take vitamin C, spirulin, niacin, and do aqua chi to pull out the chemicals in the vaccine.... if we do this can we actually cancel the action of that vaccine before it starts to develop in the body?

With respect,

Michelle N.

Hello Ken,

I purchased your Zapper back in October. I am very impressed! It really does work! Somewhere on your website I know you stated that one of the benefits people reported was hair regrowth! I will say 100% this is true! Before all I could see is scalp and would even get sunburned. It has re-grown so much that I can no longer see my scalp but because it's such a slow process I'm really just noticing it now!! This is an answer to prayer!

But my question is can you please tell me the ratio to make the saline formula. If I should get C\*\*\*D-19 I would like to use this because I know it gives stronger results.

Thank you Ken for such an awesome product! Highly recommended and I hope you update the testimonials too.

Lynn M.

Hi Ken,

Thank you very much for everything ... You have no idea how many lives your zapper saved.

Regards,  
Harry K.

Hello Ken,

I bought your zapper to use for Herpes and it does do a great job making the outbreaks stop. I have used many other zappers and none of them did anything. I see lots of criticism about you on various forums but your stuff works and the others do not.

I wanted to ask a question on using it for this. I have never used it for months in a row I just get it out when I feel one coming and it kills it usually in one try. But if I used it every day would the virus build up some resistance to it and then it might stop working?

I know this wont get the RNA that's hidden in your cell out because that isn't even fully alive but it will kill any active virus when the emerge.

Thanks Jeff

Hello.

I am using qe3.

The other day, when I used Zapper, the parasites and EB virus disappeared.

I am thankful.

I have a question.

We and the couple want pregnancy.

Should I not use Zapper before I become pregnant?

Is it OK for my husband to use Zapper?

Sincerely, MEGUMI K.

Hi Ken,

It has been a little over 2 months since our last communication. Here is my update. I know you recommended that I start out again at 10 seconds. Well, that only lasted one day LOL. I decided to go big or go home and ramped it up to 10 minutes with little to no problem. The next week, I did 20 minutes. And the week after that I did 30 minutes. Had some shingles nerves come to the surface but nothing serious that I couldn't handle. Then I did 30 minutes for 3 weeks and had a week off. Now I am back to my regular routine of 15 minutes three times per week. Still experiencing slight nerve pain in some areas (nothing that makes me go ow ow...and some itchiness, but I guess that will just take some time to heal. I am really having to watch

what I eat as some foods make it worse, as does stress.  
Following the Paleo autoimmune diet about 90% of the time:  
“The Healing Kitchen” <https://www.amazon.ca/Healing-Kitchen-Quick-Recipes-Thrive/dp/1628600942> and listening to frequency nerve healing sounds on my computer: <https://www.youtube.com/watch?v=MLd2tszjeF0> All is well!

Still loving my zapper. Thanks again for such a great healing machine.

Kind Regards,  
Carolyn

Aloha Ken, I am making amazing progress, thank you so much, wondering if you could send me the liver cleanse protocol please. I hope you are well, with enormous appreciation for your work I knew Dr. Hanna Kroeger, I ate at her restaurant for years in boulder and worked there for a period of time.

Best regards, howard

Hi Ken...I guess it's going okay! I still fell tingling when I use the unit but I'm not having that horrible feeling afterwards..I can use it for longer now...

What I have noticed is that my skin is starting to look much better! Why is this?

I have a question, since I'm noticing such a dramatic improvement I have started taking supplements...What is the best time to take the supplements to get the most out of the electroporation effect?

And how long does the effect last?

Thank you  
Lynn

Hi Ken,

I ordered the top zapper + your protocol. Below is my order item number. I have not received your protocol that I purchased with my packet. My package upon opening was my zapper, hand & foot plates with the wires. Can you send me your protocol book? Also, I am very pleased with my results of using this unit. Since my recent head & chest cold, I have had NO cold sores break out. In the past year, I have been getting back to back cold sores with head & chest cold virus. The zapper did not kick my cold symptoms out any quicker, but I will take what I can get. I will plan to order my own lab in a few months to see if I too have a negative results on HSV. If it is negative, I will then

add it to your testimonial list. Thank you so much! I will keep you posted on my progress.

Sincerely,  
Shona

Hi Ken,

All is going well here with using the zapper on my husband and I. The floaters in my eyes aren't gone yet, but hopefully soon. I am definitely able to hit parasites I couldn't get to before, and God only knows I have tried everything including working with parasite experts. Today my husband and I are trying out your liver flush with only a couple of my own variations. Can't wait to see the results.

My husband and I had a question: What have you found to be your optimal time using the zapper? When you are trying to hit something hard? Maintaining?

Currently we are up to 15 minutes, so we were interested in your feedback. Also, any feedback in this area from other clients?

Second, I would love information on becoming a distributor for the Ultimate Zapper, particularly in regards to dropshipping.

Please let me know what is entailed and what is allowed on my end in regards to marketing, etc.

Thank you and have a great day!

**Tina**

**Hi Ken,**

**We are indeed being forced into chemo on Monday. The qe3plus arrived today. He did 1 minute and said he could really feel it in his tumor. Since the cancer is only in his left forearm, is there any reason to use the foot pads also? We just did the hand holds. There is a small amount showing in his left armpit and left elbow lymph nodes also. The only visible tumor is his left forearm. He could definitely feel it working in there.**

**I did 3 minutes for myself and my neck pain was gone by the time the 3 minutes were up. The pain has come back a little now at bedtime. We will see what a little more time will do tomorrow.**

**Thank you!**

**Aaron**

**Ken,**

**Also using garlic an olive oil pate  
But results Awesomely improved when I began zapping  
An even more when I began both sides of head as you  
suggested**

**May our Loving Heavenly Father Bless you And yours for  
the instrument you made**

**Janet**

**Medical missionary in Alternative Medicine**

**Hi there,**

**Just wanted to tell you some of the things that have  
happened to me since I have started zapping a couple  
months ago.**

**There is no doubt that I have had and am still having  
releases of white worms about 2-3 inches long, white cotton  
ball-looking things, and some red half moon shaped things.  
During a recent coffee colonic I received my technician was  
shocked at what was releasing from my system.**

**Another interesting thing that has happened, I have placed  
the electrodes over my liver area and one time as I was doing**

**this I noticed a burning sensation and after I released the electrodes I noticed several small red “holes” in my skin. They scabbed over but took a while to heal because they were so deep. My assumption is they were escaping through my skin. I didn’t see anything but I can’t explain it to be anything else.**

**I was curious, sometimes but not all the time, when I place the electrodes on my stomach area I will feel either muscle contractions or movement of some kind. It almost feels like when I was pregnant and my son used to kick me, that’s how strong it can be sometimes. Can you explain what could be happening there? Is there parasite activity in my muscle tissue or are they “revolting” in my intestines?**

**Thank you for your amazing machine!! It’s made an amazing improvement in my health.**

**Paula**

**Hi Ken,**

**I just wanted to say how much I've enjoyed using your QE3plus version that I bought last year. The first 30 days of zapping I lost almost 20 lbs and haven't gained it back yet.**

**Sincerely,  
Micah**

**Ken,**

**I now do 1hr straight, once a week (gradually built up to**

**it...), and I can tell you: This zapper takes no prisoners!!!**

**Thank you for continuing to put out great products -  
QE3plus was definitely well worth the money spent.**

**All the best,  
Jeton**

**Hi Ken,**

**Thank you ken! My cousin had let me use her zapper when  
visit my mom who just pass on. I have been having some  
health issues. The one time use was amazing.**

**Carol**

**Hi Ken**

**Just wanted to give you an update on our zapping.  
My wife has been sticking w/ 10 secs max, roughly every  
other day b/c she really feels the healing reaction or die-  
off. She is starting to feel better wrt Lyme symptoms, but  
they come and go. She understands that she is going to feel  
worse before she feels better though.**

**Interesting results for me..**

**I had been dealing with a pain in my left side for a week  
after eating a bunch of raw celery and a very large dinner**

**one night. Pain was so bad, it kept me awake the first night, but was different pain than when I had pancreatitis in 2015 (alcohol induced...don't drink any more). I felt feverish for a few days, but no actual fever and felt tingly w/cold chills. So the first night that I zapped (10 secs), I woke up sweating in the middle of night, like I had a fever. I rarely sweat at night. Weird dreams too. So i've been zapping for roughly 30 secs now, every other day. The pain in side is gone, just mild discomfort when I take a deep breath. I think I might have had a mild case of diverticulitis, given it seemed like an infection too. Don't have a history of it though. Not sure. Or maybe I picked up something from the raw celery?**

**I noticed that zapping makes me tired/sleepy too, which I kind of like actually b/c I'm pretty wired. More relaxed now for sure. Slept thru the night the past 2 nights also, which makes life so much more enjoyable.**

**Take care  
Andy**

**Hello Ken,  
That sounds great.  
I have a friend named Tom kucinsky who has lyme disease very badly for decades.  
I used your zapper and cured myself and my 3 kids of lyme disease.  
Patricia**

**Hello again,**

**Well I used zapper about 20 minutes and I feel it gave me boost of energy. I'll probably continue with it daily from now on.**

**Amazing little piece of equipment! 😊👍 Thank you for building these!**

**Mari**

**Hey there Ken , Ive been zapping a good hour ( at least) a day for the last 8 weeks, Ive seen remarkable improvement the last 3 weeks. I feel 75% -80% myself lately.**

**Thanks so much again  
Joshua**

**Hi Ken!**

**Just an update, the Ultimate Zapper is working so powerfully, this is amazing....**

**I am ending my third week and ready to take the 5-7 days break. I feel very good and the tinglings sensation have almost disappeared from my mouth, including my chin, neck, shoulders. I am very happy about this and know the**

**end is near. The tinglings inside the mouth, teeth, tongue and gums are down too, meaning sometimes I don't feel anything at all. Which is great...**

**Nevertheless, there are still coming in those areas (inside the mouth). Note that this has been the hardest part. And I am wondering if the mercury amalgam fillings that I have in two of my lower teeth are the issue. I would have used the zapper near that area, my head, to accelerate my healing. But I know I cannot.**

**I am also afraid to remove those amalgam fillings now that I am so close to my healing. Afraid that the medicine they will put and use to remove them will mess up all the good work done already by the zapper, bringing me back to the starting point.**

**Also, can we still get healed with the amalgam fillings in the mouth? What do you advice me please? Should I just be more patient? I really need your advice .**

**Thank you so much,  
Angeline**

**Ken, Im not writing a testimonial ... yet. But my back does not hurt the last two days, or it hurts about 90% less.**

**Ive been battling Lyme for 4 years, and I got the diagnosis Later than KAren Allen.i was almost dead 2 years ago, bedridden for 6 weeks. I sort of got myself half functioning**

**with herbs and diet after about 6 months. A native american Herbalist told me it was Lyme about a year later. Russel and Jackie ( four eagles).**

**I got the device out and used Karens story as a model , 7 minute sessions , 20 minute breaks. I had this burning itchy feeling along the spine. Ive had that before but it was really bad with the zapper on.**

**In any case, no back pain for 2 days, that is pretty impressive. For myself my back being worse means my other symptoms are worse too, or are about to get worse.**

**I have very high hopes for this and my herbal protocol which Ive narrowed down to Grapefruit seed extract, monolaurin, and Allicin. All of these at very high doses. These are not common favorites for Lyme but these are the ones that have produced the best effects for me after 2 years of trying everything out there.**

**This is a great product you have.**

**regards**

**Joshua**

**Hello Ken! I bought a QE3plus (full set) a few years back & just love using it! My wife does too! She likes to use it in another room from where I do my sessions, hence we thought of getting just another set of pipes & plates, so we'd just move the zapper unit around. Is it possible to buy an extra set of pipes & plates without buying another zapper??**

**....and price for this?**

**I bought the QE3 while living in Quebec a few years back  
108(I think) Olive St., Magog, QC  
Paul**

**We now live in Brantford, Ontario**

**Thanks, loads Ken!**

**K Thanks man! I actually zapped both upper and lower  
jaws yesterday again and did not have the same pain as  
before. You're making me a believer.... ;-)**

**Dr. Mike**

**Thanks for the clarification, Ken.**

**Indeed I felt a lot better immediately after 3 amalgams were  
removed (this dentist was able to detect mercury underneath  
one of the metal crowns using Rita meter, which the 1st  
holistic dentist didn't see on x rays) and the zapper seems to  
be much more effective in killing the parasites and I've been  
able to sleep just for 7 to 7 and a half hours (just like before  
when my health began to go downhill 6 months ago) and be  
productive during the day instead of 8 hours of sleep or  
more to accomplish the same....**

**Cephas**

**Dear Ken,**

**My mom is having very good result with zapping, we have the Qe3plus.**

**She had infections of all sorts, pains in her ovaries and swollen lymph nodes all over her armpits, she had 5 bumps in her breasts, now they are gone.**

**Ken, now I want to ask you in relation to my mother in law. She has hepatis C virus and now she is undergoing a strong medication against it but it weakens her too much and she feels terrible.**

**Ken, I talked to her and urged her to stop this treatment and start zapping. I strongly believe the virus will deactivate in time with zapping.**

**What do you know about the efficacy of Qe3plus with virus C?**

**Have you had anyone beating this virus with your zapper?**

**Waiting for your reply,**

**With great respect,  
Michelle N.**

**Hi Ken,**

Just an update, I tried your device and it's amazing! I used it for 10min the last couple nights and could feel all of the critters that reside in my neck and legs getting a taste of their own medicine. Im having lots of die off symptoms, I will take that any day over feeling like I'm getting eaten alive. You have given me hope again. Keep up the good work that you do!

Thanks,  
Caresse

**Thanks Ken for your help I'm am really benefiting from the zapper  
agnes**

Hello Ken! My name is Robert xxxxx. Purchased the QE3plus and just love it. Had a Best Zapper before. I was looking up in your website and noticed that when we purchase a new zapper we receive the liver cleanse book. Never had that. Can you verify this for me.

Thanks.  
Robert!

Well Ken

I am not sure what to say but thank you. I received my unit and hadn't used it until today. I had started on an antibiotic for a kidney infection and wham I got a huge surprise when I woke up to swollen lips, tongue throat, belly.

I hooked up your unit and started. I can't believe my eyes. After the first 10 second session my lips began to shrink, tongue didn't hurt, throat didn't hurt, belly pain was going away. I am in total shock. I was going to go to the ER again. I am so glad I bought your unit.....amazing.

After the third session my lips are normal the feeling of wanting to vomit has gone I feel almost normal.....unbelievable.

P.S. I did order your recovery protocol and something else and I didn't get them? But I can say I am thrilled with your unit.

Robin

Hi Ken, I spoke with Shera today, here's the results so far. She zapped 10 seconds and had some lymph swelling under her jaw after the first or second time zapping, She thinks it's a detox. Later on she zapped with the handles on either side of her jaw and that seemed to decrease the inflammation there.

Her almost 3 year old did a 5 second zap Friday night. He was sleepy Saturday and zapped again once Saturday night. Today Sunday he had more energy than he's had in a long time. Shera thinks it's the zapper. There wasn't any other reason why. He'll have his 5 second daily zapp again tonight, so I'll let you know how things keep going as I talk keep in touch with Shera.

Oh how long to wait after he gets his IV chem-o (which will be Monday or Tuesday) till he can zapp again?

Thanks.  
Aaron

Ken,  
thank you thank you thank you for offering your Ultimate Zapper tool to the public. My brain parasites are gone, liver flukes gone, pancreas/adrenal flukes gone and my energy and mood has lifted beyond anything I have felt since I was 4.

xoxo  
Jenny

Hi Ken,

I was just writing you in the hope that you could guide me a little bit on how to use my ultimate Zapper to get rid of tapeworm. I've just started zapping last Friday and have seen more results in getting rid of my parasite problems than anything else I've tried but was wondering what is the best way to use the zapper for tapeworm. Should I do the on and off sessions or duration zapping. Also how long and how many times a day. Thanks Ken. Really enjoying your zapper. Hope to hear from you.

Richard

Hi Ken!

I usually get a lot of oral sores (ulcers). But i have noticed that whenever i zap at the slightest indication of a sore the sore stops developing. Now that is something positive.

Regards  
Anand

Hi Ken! I have been having the best time with your Ultimate Zapper. Glad you mentioned that I may not feel a “buzz” and that the red light means it is working, or I may have thought it was broken! Now that I have used it for a few days, I can detect a very subtle “hum” going through me.

My energy has been through the roof, but not in a way that one might expect - I didn't use the zapper and then jump up and have so much energy that I could run around the block and chop wood & stay up all night; What I feel is a mental energy that leads to me being more active. After my first zapping session (about 2 minutes) I suddenly thought “You know, I think I might get up & start cleaning my house & get a load of laundry in.” This may not seem significant to some, but for me, this is HUGE. I have had increasing lack of energy & lack of interest in doing much of anything! This started when I moved to New Zealand in 2004. I started gaining weight almost immediately - the wedding dress that I bought in the first 2 weeks of being there, was a tad tight for my wedding after a month of being there. And by the time we moved back to the States, 2 children later, I had gone from a dress size 10 to a size 20. I had literally doubled in size. And now that I have been in the States for a

year & a half, instead of going back to the size I was when I left the States, I have continued to put on weight & am now a size 24. With 2 little ones to look after & now the only parent left, stress & lack of energy are my main opponents. So, to use this little device called the Ultimate Zapper for just a few minutes each morning, & be able to have CONSTANT energy through the day, even bypassing that afternoon slump I usually have, is a game changer. I was able to drive all the way up to Whistler (3 hour's through a border crossing, Vancouver city, along a mountain route I wasn't familiar with, and still had energy to keep going at the other end. I packed my Zapper up in a shoe box & zapped at the hotel, and after our short holiday was able to drive back down to a different part of Canada, have a full dinner, drive another hour back home, and still unpack all of our suitcases & put a load of laundry in before bed. THIS IS INCREDIBLE that I had the sustained energy to be able to do this! Granted, my parents did come along (they live in a different State) but usually, I would be totally stressed with having to drive so much, in a bad mood because all I wanted to do was sleep, and be starting arguments over little things because I couldn't enjoy anything as I was so tired. Yes, the Ultimate Zapper has made a night & day difference in my life.

I am so glad I kept searching online to find out what was actually going on with me - I have been thin all my life, active in ballet, never had a weight issue. Never had an issue with low energy. And then, after moving to NZ, I was fat & last? What?! Something was going on, but it was last subtle, under the radar. Not sure how I ended up finding the Ultimate Zapper, but the testimonials on your site, and your quick response to my inquiry email, made all of the difference.

Below are a few links I have found very helpful with identifying symptoms of parasite overgrowth. These were the turning point for me in my understanding:

parasite overgrowth symptoms

<http://theparasitecleanse.net/>

good interview about a lady who went thru a parasite cleanse protocol, her experience before & after, night & day difference

<https://drruscio.com/intestinal-worms-causing-weight-gain-stress-food-allergies-constipation-insomnia-patient-conversation/>

I do have a request - I am after longer cord to go from the hand holds to the foot pads, would you be able to make these for me? I am feeling the need to put a handhold behind my neck, & I have to stay hunched over in order to not pull out the cord to the foot pad(s). A longer cord would allow me to sit up straight 😊

And I have a ? regarding parasite overgrowth symptoms, or possibly the symptoms that mean I am getting rid of parasites and am having die-off - Yesterday when we were in walking around Whistler (Canada), I started feeling numb on the front of my thighs, first the left & then the right joined in. It didn't affect my muscles or walking, but feels like a hand towel sized 'pad' of skin suddenly went numb . . . ? I have felt it again last night after driving back to the States & this morning after watering my plants. It is a little concerning, but I don't feel any pain & have full function of my muscles underneath the number skin. Not sure what to make if it. Any advice would be appreciated.

Thank you for continuing to perfect this amazing zapper, the Ultimate Zapper!  
Cheers, Jennifer

Ken, we are So thankful to have you! Our lives started to change since we got hold of these AMAZING devices: UZ and Aqua Chi.

We are not still out of the woods yet, I have to start chelation, I started the biochemical recovery and then I will start chelation and after that I will start zapping daily. But there are great effects already on me and my husband and our relatives.

I will tell you more someday.

Thats why I decided to start this blog and distribute them.

Niculae M.

Hey Ken, how are you? Keeping well? I just wanted to ask you a question about Curezone.org, I can see you're quite active on it.

How do I go about making a post? I've looked for 3 hours, tried emailing them (to no avail, they wouldn't accept my email) and just can't find where I could send an email.

About the zapper, it's been working well for me. It's making the bugs angry, that's for sure. the floaters in my eyes have changed to smaller, flashier ones, but I feel super out of it and am unable to concentrate on work.

My dietician in Toronto recommended I zap my temples to completely remove the floater. I don't have any amalgam filling. I have used to zapper for an extended period of time, and it made me pretty dizzy, out of it. There's definitely something in my stomach and brain that is super strong, and seems resistant to everything.. I've been taking goldenseal with the zapper, because I actually was able to stop losing so much weight by doing it before. Anyways, thanks Ken, you zapper is a quality product, money well spent for sure.

Geof

Dear Ken,

I use the Zapper with footpad for 10 sec last night, this morning, lots of waste came out, feels good! I have chronic halitosis for 10 years, I really hope the zapper will cure it! I always have a feeling that the smell is coming from the back of my throat, although I checked with 2 ENT doctors, they said the throat looks fine. I did have many tonsil stones before due to high acid in my body, after I notice it, I start eating healthy with lots of fresh fruits and veggies, now the tonsil stones are gone, however, I still feel there's always something stuck in my throat when i swallow (might be a huge stones in the back of the throat and won't be able to see. So I am wondering should I put the zapper near my throat? What do you suggest? Thank you!

Vivian

Ken,

I have been suffering from self-diagnosed chronic fatigue for a year and half, now. While I have not had any tests done to verify, I believe the cause of this is mercury toxicity. I came to this realization only a few days ago and I remembered your material. We have been using your zapper ever since we got it. It is a true blessing. It is the one thing that is keeping me somewhat functional. I wanted to ask you a question...

I am not able to afford the removal/replacement of my mouth full of amalgams, at the moment. Would liver cleansing give me more energy until I can have my amalgams removed? Would you recommend doing liver cleanses before I remove the amalgams? I'm desperate to do anything to give myself more energy so I can get back to work.

John

Hi Ken. I told you about my neighbor 3 weeks ago. No amalgam fillings. No hospital or industrial area or nuclear plant. But he did work with toxic stuff.

In one week or so he will redo a CT scan to see if there are any improvements with his bladder.

I asked you because I read something you wrote on a forum about building a zapper with 1000 hz frequency that will never allow viruses/parasites to get resistant to this frequency.

If its true, I will be the first buyer, let me know. My husbie already has significant improvement with his energy, he has suffered from huge chronic fatigue all his life... Nick, you know him he wrote you several times. We're from Romania. So we found it was Epstein Barr in his liver...so this year he felt a tremedous effect due to zapping and he still has to zapp until he eradicates the virus and get his normal energy level back.  
Michelle

**My name is Amrit, I'm danish and live in Italy  
Twice I have got the Lyme Disease, the second time was very bad.  
I ended up laying down most of the time and at a certain point,  
my girlfriend was so worried that she wanted to call the ambulance.  
I hardly couldn't breathe, half my face was going numb and I looked like a tomato.  
I am not a fan of hospitals so I started looking online and ended my search  
on the Ultimate Zapper website..... Wow!  
Immediately after the first day of 30 seconds zapping energy was coming back.  
Long story short I am back on my feet, still spending most of my days in nature  
between ticks and all, coconut oil on my skin, danish anti tick socks and daily zapping.  
Thanks Ken, well done!  
Amrit**

Hi Ken,

Wow, your QE3plus *zapper* has been the best health purchase I have ever made, and I have purchased and tried a lot of things!

I am almost up to 30 minutes and then will take a week off and do 3 weeks of 30 minutes, a week off, and then back down to 15 minutes 3 times per week. Is this a good approach? With just doing it 3 times a week, do you still take a week off after 3 weeks or just continue with 3 times a week?

I am going to be getting a puppy soon and do not want to use regular vaccines (will use homeopathic vaccines) or flea, tick, parasite prevention medicine. Since the zapper is working well killing parasites in me, I was wondering if the zapper would work well for killing life threatening heartworm in dogs...just in case it is needed, although I will do everything natural I can to prevent it from happening. I will be using diatomaceous earth right from the beginning for the other not so serious parasites.

Thanks again for your amazing invention. I will be emailing you my health results within the next few months.

**Carolyn**

**Dear Ken, how are you. Its been a while i didnt contact you, but i need your advice, its about parasites.**

**I used zapper between November - mid February and i was able to get rid of lyme and bartponella, hopefully they wont**

**come back. But i had to stop using it as apparently just like you said i had a high level of mercury, and i started to feel unwell. i used some medicine and natural detox and was able to get rid of it. But in February me and my friends went to cuba and we all came home sick with parasites. most of them got rid of them fast.**

**Thank you.**

**Anna**

**Ken, I have the Zapper and love it. I just moved to the UK and they have power adapters one can put on US appliances. I wanted to confirm with you this is ok for my zapper. Is there anything I should know first or should I do something else to ensure it works properly?**

**Best,**

**Diane**

**Hi Ken,**

**Thank you again. The Ultimate Zapper is a great machine. Keep up the great work.**

**Roger**

**Hi Ken ,**

**I have received my Ultimate Zapper this morning. The zapper received is intact and works well when connected to power. I did my 30 seconds of zapping (my first) ; boy it immediately turned me tired and i slept for an hour (i believe it's a die off effect). I woke up refreshed. I'm looking forward my 2nd session tomorrow. Will update you of my progress after 10 days.**

**Thank you. Surinder.**

**Hi, Ken. I am Nick, I hope you remember me :)**

**If I use your magnificent zapper (QE3plus) *every other day*, not daily, after how long I have to take a break? I know that in daily using the break must be taken after 3 weeks. Just for knowing! I love your zapper. My chronic fatigue syndrome caused by an infection with Epstein Barr virus has begun to recede. Thank God I found you! Bless you.**

**Regards,**

**Nick**

**Hello,**

**Huge fan of your product. Have around a dozen people that bought them after seeing the difference it made in my life. But My handholds broke for my zapper, dropped them and the ends cracked. How much for a replacement?**

**Michael**

**Hi Ken,**

**I have been zapping for 1/2 hour everyday (with 1 day break here and there) for treating candida/yeast infection.**

**I am happy to let you know that this zapping worked!! The discharges and most importantly, the itching (could drive anyone nuts) has stopped. Praise be!!**

**My question is, is it best to keep zapping everyday, or is it best to take a few days intervals, 2 to 3 days break in between?**

**Thank you for inventing this zapper.**

**Kind regards,**

**Mary**

**Hello Ken!**

**I'm happy to report that the Ultimate Zapper is working wonders for my partner! It gave him flatter stomach and the feeling in his feet are coming back (he has onset diabetes)!!**

**As for myself, as I mentioned before, I was getting the slight nausea and headache. But after the first two sessions, I had a surge of energy which lasted for several days! I was soooooo excited!!!!**

**Thank you so much!**

**Hanaka**

**Hello.**

**I'm amazed how the zapper Qe3plus is making me and my family feel better.**

**I will always be grateful to you.**

**I have a question, last night i forgot to turn off the zapper, until morning I found out what happened and turned it off. I want to know if my distraction of leaving the zapper turned on for many hours will affect it negatively?**

**Thank you.**

**Ruben**

**Hi Mr Ken**

**Hoping your day is Merry and Bright!**

**Jess zapped for 10 sec only. I went a little longer! We felt no vibration or pulsing, but "movement" or "activity" right away, and ongoing in different areas as time went on. After about 10 min. I felt energized and elevated. Jesse**

**After 1 hr was sleepy and rested the rest of day. By evening he was able to study and "get it" on a lesson he had spent days trying to absorb.Says he feels great.**

**Most all my pain left and I no longer have this feeling like I'm being nawed on! Oh! Wow!**

**Will have our second session late today.**

**Many Blessions to You and Yours**

**Cheryl**
